

optiLubeTM reachTM

Lubricating Jelly

STERILE R CE 0473

Unique Long Reach Nozzle for Precise Application

OptiLube ReachTM is a new product extension of the OptiLubeTM range. OptiLube ReachTM is available in 5g and 15g tube format, which both have a long reach nozzle for improved dispense accuracy of the jelly.

OptiLube ReachTM features and benefits:

- OptiLube ReachTM unique long reach nozzle measuring 15mm enables a controlled and precise application.
- Snap & twist cap for easy opening.
- OptiLube ReachTM is a Medical Device Class IIa.
- Water soluble, PH balanced, universal sterile lubricating jelly.
- Non-sticky, non greasy formulation and is petroleum free.
- This product is safe to use on human tissue and will not damage rubber or metal.
