**Basic course in interventional endosonography
for lung diseases 12th and 13th September 2011**

Dear colleagues,

It is a pleasure for us to invite you to the third basic course in interventional endosonography for lung diseases at the EUS and EBUS Training Centre at Gentofte University Hospital, Copenhagen, Denmark.

Transesophageal (EUS) and endobronchial (EBUS) guided fine needle aspirations (FNA) have been proven to be safe and accurate methods for the diagnosis of tumours in the lungs and the mediastinum, including the diagnosis and staging of lung cancer, where the combination of EUS and EBUS can serve as a complete “medical” mediastinoscopy. Unfortunately, the access to the accessibility to these methods is not yet widespread. Implementation and training is still a challenge for the chest physician.

The interpretation of the ultrasound images is difficult to learn and the procedures are difficult to master before they can be integrated into clinical practice. Consequently, there is a huge need for dedicated courses and workshops with live demonstrations under normal and pathological conditions as well as detailed demonstration of various procedures. Also “tips and tricks” of imaging as well as FNA shown by experienced examiners and the indications and limitations of invasive techniques are important to learn.

This course will focus on EUS and EBUS as new methods in the evaluation of lung cancer and unknown mediastinal lesions. The clinical literature will be reviewed. The equipment and the techniques will be demonstrated during live cases.

We want to focus on how to implement EUS and EBUS and discuss training aspects, thus making the participants able to set up the techniques in their own hospitals when returning home. In addition to this, the course will also address institutions that have already introduced the procedure but may lack standardized training.

The first course was a tremendous success and we are also this time delighted to welcome one of the leading experts in EUS and EBUS, Dr Jouke Annema from Leiden University Medical Centre, The Netherlands. Furthermore we welcome Dr. Birgit Guldhammer Skov, senior pathologist at Bispebjerg University Hospital, Denmark.

We look forward to seeing you in Gentofte, Denmark on the 12th and 13th of September 2011.

Peter Vilmann

*Head of Endoscopy Unit Z-806,
Department of Surgery,
Hølev and Gentofte Hospital,
University of Copenhagen*

Paul Frost Clementsen

*MD., DSc., Consultant,
Department of Pulmonary Medicine,
Gentofte Hospital,
University of Copenhagen*

FACULTY

Peter Vilmann

*Professor, Consultant Doctor, MD, DMSci, HC
Department of Surgical Gastroenterology D, Herlev and Gentofte
University Hospital
Denmark*

Paul Frost Clementsen

*Consultant Doctor, MD, PHD, DMSci
Department of Pulmonary Medicine, Gentofte Hospital
Denmark*

Jouke Annema

*Director of Endosonography for Pulmonary Medicine,
Consultant Doctor, MD, PHD Department of Pulmonology,
Leiden University Medical Center
The Netherlands*

Lars Konge

*Thoracic Surgeon, MD, PHD,
Department of Cardiothoracic Surgery,
Copenhagen University Hospital,
Rigshospitalet, Postdoctoral Research Fellow,
Centre for Clinical Education,
University of Copenhagen
Denmark*

Birgit Guldhammer Skov

*Consultant Doctor, MD, DMSci
Department of Pathology, Bispebjerg University Hospital
Denmark*

PROGRAMME

Monday, 12th September

14.00 Registration

14.30 Welcome and Introduction
P. Vilmann and
P. Clementsen

14.35 Diagnostic methods in patients
with lung tumors
and mediastinal lesions
P. Clementsen

15.00 EUS – equipment, examination
techniques and basic interpretation
P. Vilmann

15.30 EBUS – equipment, examination
techniques and basic interpretation
J. Annema

16.00 Coffee break

16.30 How to learn EUS and EBUS
P. Clementsen

17.00 How to assess EUS and
EBUS competence
L. Konge

17.30 End of the day

19.00 Dinner

Tuesday, 13th September

09.00 Live demonstrations

11.00 Coffee break

11.15 Live demonstrations

12.00 Lunch

13.00 EUS – state of the art
P. Vilmann

13.45 EBUS – state of the art
J. Annema

14.30 Coffee break

15.00 How to implement EUS
and EBUS –national and
international aspects
J. Annema

15.30 Live demonstrations – cytology
from earlier the same day
B. Guldhammer Skov

16.00 Role of the cytologist
B. Guldhammer Skov

16.30 End of the course

INFORMATION

Accommodation

All hotel reservations are to be handled by the participants themselves.
We recommend the following hotels:

Gentofte Hotel (walking distance)
www.gentoftehotel.dk

Copenhagen Admiral Hotel (in Copenhagen)
www.admiralhotel.dk

Radisson Blu Royal Hotel (in Copenhagen)
www.radissonblu.com/royalhotel-copenhagen

Registration:

Please register online at www.gentofte-workshop.org or enclosed registration form and fax back to xxxxxxx.

- Congress venue: Gentofte Hospital, Auditorium, Entrance 28
- Congress language: English
- Registration deadline: 15. August 2011
- Transportation: Public Transport B-line,
10 min walk from Bernstorffsvej station

Congress fee : 350 Euro including

- Course fee
- Course material
- Coffee and lunch breaks
- Welcome dinner

This workshop is sponsored by:
