Dear EUS colleagues and friends,
We would like to extend a warm welcome to you on the occasion of the 16th edition of **Endosonography Live in Amsterdam 2013** which will be held on 6 & 7 June 2013. Besides our esteemed long time faculty consisting of **Robert Hawes** and **Thomas Rösch** (both since 1997!), we are very glad that **Marco Bruno** from Rotterdam, **Pedro Marques** from Lisbon in Portugal, **Julio Iglesias Garcia** from Santiago de Compostella in Spain, and **Marcin Polkowski** from Warsaw in Poland have accepted our invitation to serve as guest faculty. Our local faculty has grown again with 5 endosonographers at the AMC, now Jeanin van Hooft, Barbara Bastiaansen, Sheila Krishnadath, Jacques Bergman and me. The 2013 issue of our course will focus on new developments but also teach and show techniques of experts in order to either learn EUS or to benchmark your performance. Our course is well known for its relaxed atmosphere and open discussions. Over the past years the course has grown to an attendance of around 200 people. We are not aiming to attract more than these 200 participants as this might result in a decreased learning experience for our participants, for you! We feel that, looking at the program, the 2013 course will again be an excellent educational and attractive course, thanks also to the continuous support of Olympus Europa.

Looking forward having you as our guest (again) on 6 & 7 June 2013,

Paul Fockens

on behalf of the organizing committee
