SUMMARY OF PRODUCT CHARACTERISTICS³ PROPRIETARY NAME

Spasmomen®

INTERNATIONAL NON-PROPRIETARY

NAME Otilonium bromide. PHARMA-

CEUTICAL FORM Tablets. PHARMACOLOGICAL

DATA Pharmacology. Otilonium bromide exerts an

intense antispasmodic effect on the smooth muscles of the

digestive tract. Experimental data have shown that absorption

following oral administration is very low, and most of the absorbed portion

is excreted through the biliary tract. **Toxicology.** *Acute toxicology:* no fatalities

occurred when the drug was administered orally in doses up to 1500 mg/kg and 1000

mg/kg in rats and dogs, respectively. *Chronic toxicity:* oral doses of 80 mg/kg of

otilonium bromide administered to laboratory animals for 180 days did not cause

any changes in blood chemistry or histological profiles. *Teratology:* no embryotoxicity

or teratogenic effects were observed in rats or rabbits even at doses of 60 mg/kg.

Mutagenesis: no mutagenic effects were observed. **CLINICAL INFORMATION**

Indications. Irritable colon and spastic painful conditions of the distal section of the

intestinal tract. **Contraindications.** Known hypersensitivity to the drug. **Side effects.**

At therapeutic doses the drug does not cause side effects, nor does it cause atropine-

like effects. **Special precautions for use.** The drug should be used with caution in

patients with glaucoma, prostatic hypertrophy and pyloric stenosis. **Use in pregnancy**

and lactation. Although there have been no reports of embryotoxicity, teratogenic

or mutagenic effects in animals, like all drugs, Spasmomen® should only be given to

pregnant women and nursing mothers if absolutely necessary and under close medical

supervision. **Drug interactions.** None. **Dosage and administration.** 1 tablet 2-3

times a day, at the physician's discretion. **Overdosage.** Otilonium bromide has proven

to be practically free of toxicity in animals, therefore, overdose should not cause any

particular problems in humans. If necessary, symptomatic and support therapy should

be administered. **Warning.** Keep out of reach of children. **Effect on ability to drive**

and to use machines. None. **PHARMACEUTICAL INFORMATION** Incompatibility.

None. **Shelf-life.** Three years. **Special storage precautions.** None. **Package box**

of 30 tablets. (40 mg). **Dosage.** 1 tablet 2-3 times daily.

Rolf Hultcrantz
UEGF President

Dear Friends,

The United European Gastroenterology Federation (UEGF) has the honour to welcome you to the UEGW 2010 in Barcelona. Since 1992 UEGW has been the forum for European Gastroenterologists and has shown a steady increase in participants over the years. UEGW is now among the top medical meetings in Europe and is recognised as a top class gastroenterology meeting also outside of Europe.

Not only has the number of participants increased, we have also been able to attract top scientists and the amount of submitted abstracts from well recognised scientific centres worldwide is steadily growing.

We are convinced that UEGW has managed to do so mainly because of its unique organisation. All societies that make up UEGF have representation on the Scientific Committee, resulting in a comprehensive programme that is beneficial to clinicians, academics and researchers alike. In the last years the UEGW postgraduate course has been redesigned and ever since we have seen a steady increase in participants.

UEGF has expanded its activities during the last years following a reorganisation. The Education Committee now organises trainee courses and basic science workshops of highest quality standards throughout the year in different locations across Europe and offers financial aid and personal support with long-term partnerships and financial support of initiatives which intend to employ advanced methods of teaching in gastroenterological education.

The Public Affairs Committee is very active in drawing attention to the huge health problems caused by diseases in our field and has further been successful in gaining the press's interest in our area of health care and developing links with patient organisations.

A meeting however always depends on its participants in reaching its goals. We hope that all of you – those who come to learn about the latest in Gastroenterology, and those of you who want to present their work to colleagues, will help us create yet another successful UEGW. It is our hope that joining us in Barcelona, you will contribute to a successful gastroenterology meeting with excellent science and education in the field.

A handwritten signature in black ink, which appears to read 'Rolf Hultcrantz'. The signature is stylized and fluid.

UEGF President

MISSION & GOALS

The UEGF is a professional medical non-profit organisation comprising all of the major European societies with an interest in disease of the digestive system, including the oesophagus, stomach, liver, gallbladder, pancreas, intestine and bowel. The European societies that make up the Federation include medicine, surgery, GI oncology, paediatrics and endoscopy. UEGF is the most comprehensive organisation of this kind in the world and our affiliated societies represent over 22,000 European specialists.

The Goals of the United European Gastroenterology Federation are:

- ➔ to advance science and education in gastroenterology and hepatology for the benefit of public health
- ➔ to promote and co-ordinate, throughout Europe and beyond, discussion and exchange of ideas and results relating to the diagnosis, treatment, research and prevention of diseases
- ➔ to provide a suitable medium for the dissemination and discussion of the latest results in the field of gastroenterology and hepatology and related subjects
- ➔ to stimulate and promote basic and clinical research in the field and to render it visible in the global context
- ➔ to harmonise and improve clinical standards throughout the whole of Europe

CM CONGRESS MOBILE®

The UEGW 2010 App is a free application, powered by the CM CONGRESS MOBILE® software and directly available from the Apple App Store. At UEGW 2010 in Barcelona, CM CONGRESS MOBILE® provides Apple **iPhone**, **iPod Touch** and **iPad** users with the Questions & Answers (Q&A) module.

About the CM CONGRESS MOBILE® Q&A Module

The Q&A tool of CM CONGRESS MOBILE® enables the audience to submit questions to a speaker, the chairman or a panel in real time during a session.

This allows to collect, filter and cluster questions in order to present them to the speaker in a well-structured and controlled way, effectively optimising the notoriously short time-slot for Q&A after each session.

Participants fire off their questions at the time they arise and avoid a personal backlog, while ensuring that all questions will be with the chairman or speaker as soon as the presentation or speech ends.

The benefit of CM CONGRESS MOBILE® Q&A for participants is to give everyone in the room an equal voice, while optimally utilising a chairman's time to process, cluster and order relevant questions. All questions regarding a session are also stored and preserved on server-side and can later be accessed and reviewed online, e.g. as a web forum.

Features include:

- ➔ Submit text questions from your cell phone to a chairperson/speaker during a session
- ➔ A chairperson can manage (collect, filter, select and cluster) questions using any web browser
- ➔ Present selected questions on a web site, to e.g. show them on the projection area

The Questions & Answers tool is available in the Halls 113,114 and 211+212.

SPEAKERS CENTRE

The speakers centre is located in the Room VIP on the Mezzanine Level above the Entrance Hall of the CCIB. Speakers are asked to hand in their CD-ROM or USB stick, containing the PowerPoint Presentation (IBM format or compatible, no multisession) preferably one day before their presentation but at the latest 3 hours prior to the presentation.

The presentation will be transferred to the central congress server and will be available afterwards on a special congress notebook in the hall of the presentation. Due to time and technical reasons we kindly ask the speakers not to use their own notebook.

Videos (VHS or DVD) need to be handed in at the speakers centre preferably one day before their presentation but at the latest 3 hours prior to the presentation.

In the speakers centre there are several PC working stations where speakers can also work on their PC charts in a quiet area. Technical staff will be happy to assist.

Opening Hours

Wednesday.....October 27.....09.00–14.00

COFFEE BREAKS AND LUNCHES

Coffee, tea and water are served during the morning and the afternoon coffee breaks from Monday, October 25 until Wednesday, October 27 free of charge to all registered UEGW participants.

Lunches are served for registered UEGW delegates from 12.30 until 14.00 from Monday, October 25 until Wednesday, October 27. The catering stations are located in the exhibition area in Hall P0 and in the entrance hall of the CCIB.

The coffee breaks and lunches for the Post-graduate Teaching Programme and the ESGENA Conference are embedded in the programme on Saturday, October 23 and Sunday, October 24.

CLOAKROOM

A cloakroom can be used free of charge from Saturday, October 23 through Wednesday, October 27 in the passage way to the Auditorium. Participants can also store their luggage there.

CONGRESS LANGUAGE

The official language of the UEGW is English. No simultaneous translation is provided.

EMERGENCY AND FIRST AID

In case of emergency please contact the staff at the congress counter. First aid can be provided through the First Aid Service Center on level minus 1 (-M1, below escalator C).

HOTEL RESERVATION

All requests related to hotel accommodation can be addressed to the specific section of the congress counter in the entrance hall of the CCIB. The staff of our local partner Viajes Iberia Congressos will be pleased to help.

PUBLIC TRANSPORTATION

Upon arrival at the congress venue, all registered UEGW delegates, fellows in training, accompanying persons as well as ESGENA Conference delegates receive a 5-day public transportation ticket which is valid from Saturday, October 23 through Wednesday, October 27 (through Monday, October 25 for ESGENA delegates) in zone 1.

The ticket entitles the holder to travel on all public transport facilities within the Barcelona city boundaries.

Please make sure to write your ID or passport number on the public transportation pass.

HOW TO GET THERE

From the Airport to the City Centre

The city centre can easily be reached from the airport by taxi, bus or train. The Aerobús is the bus route that runs to Plaça de Catalunya Square in the city centre: It operates 06.00 - 01.00, daily every 10 minutes. The ride lasts around 30 minutes to Plaça de Catalunya. The train also leaves for the airport in Plaça de Catalunya Square and runs every 30 minutes.

From the Airport to the Congress Venue CCIB

The CCIB is located 20 km from the El Prat Airport and can be reached via Plaça de Catalunya Metro Station. The Aerobús runs from the airport to Plaça de Catalunya Square. From there the metro takes you to the CCIB (10 minutes driving). Get off at El Maresme-Forum Metro Station, line L 4.

The CCIB is in walking distance from the Forum Barcelona Bus Station, lines 41 and 7.

Access by car through freeway Ringroad Ronda Litoral.

CAR PARK

Parking space is available on level minus 2 (-M2). The parking fee is not included in the registration fee.

TAXIS

Taxis can be found every day and at any time. They are yellow and black and have their license number displayed on the side. When they have the green light on they can be stopped in the street. They can also be found at ranks on Barcelona's central streets and squares. There is also a radio taxi service – the taxi will pick up passengers from wherever they like. Tariffs are displayed inside the taxis and comprise the minimum fare, flag-down charge, kilometre charge and other extras such as night service, public holidays, and station or airport service.

METRO

The metro runs to all central areas of the city and has station entrances in the most popular tourist areas. They are marked with the letter „M“.

Operating Hours

Monday–Thursday.....	05.00–24.00
Friday.....	05.00–02.00
Saturday.....	Continuous Service
Sunday & Holiday.....	05.00–24.00

BANK AND ATM

Banks are usually open on weekdays, Monday-Friday, 8.30–14.00.

The closest ATM (Automated Teller Machine/ cash point) can be found at the Shopping Center Diagonal Mar, next to the CCIB.

CURRENCY

The currency in Spain is the Euro. At most banks as well as at exchange bureaus in the city currency can be exchanged. Credit cards are widely accepted.

SAFETY

Las Ramblas is a popular tourist attraction. Any time during the day or night several thousands tourists are meandering along the Ramblas soaking up the atmosphere and enjoying the activities. However there is also another group of individuals that are attracted to Las Ramblas for a completely different reason. They are interested in taking advantage of the tourists. Please take care of pickpocketing and bagsnatching. Always keep an eye on your belongings.

Please make sure to take off your name badge and congress bag when you go sightseeing in downtown Barcelona. Wearing the name and bag identifies you as a tourist which might attract pickpockets.

INSURANCE/ LIABILITY

UEGW 2010 does not accept any liability for damages and/or losses of any kind which may be incurred by the congress participants or by any person accompanying them, during either the official activities or excursions. Delegates participate in all tours/events at their own risk. Participants are advised to take out insurance against loss, accidents or damage that could be incurred during the congress.

RECORDING

Cameras, video cameras or audio recording devices are not permitted in session rooms. Any recording of sessions is strictly forbidden.

SMOKING

The CCIB is a non-smoking venue. Smoking is prohibited within the CCIB.

UEGF RESEARCH PRIZE

EUR 100.000 awarded for the most outstanding research programme

The prize will be awarded for excellence in basic science, translational or clinical research and the recipient must be able to demonstrate that their work has had an impact in its field and its quality has been recognised internationally. The recipient will have produced a substantial body of basic science, translational or clinical research in a focussed area of gastroenterology, hepatology or related disciplines.

Hans Clevers

Professor Hans Clevers (Hubrecht Institute, Utrecht) was awarded the UEGF Research Prize 2010. Professor Clevers is a world leader in the GI cancer signaling and GI stem cell fields and has many high profile publications in Nature and other top journals. His most recent work has focused on GI stem cell markers, the differentiation of stem cells into intestinal tissue, and the role of key stem cell mutations in cancer development. The Prize will help fund his future research plans to “develop techniques for ex vivo expansion and transplantation of stem cells from the human intestinal tract”. Originally trained as an MD and a molecular biologist, the UEGF Research Prize will finally allow Professor Clevers to take his findings on the basic biology of stomach, intestinal and liver stem cells into the clinic.

Award Ceremony // Opening Plenary Session

UEGF LIFETIME ACHIEVEMENT AWARD

Recipients have proven lifelong excellence and leadership in the field

The UEGF Lifetime Achievement Award recognises outstanding individuals whose pioneering and inventiveness throughout their careers have improved the Federation and inspired others.

Juan-R. Malagelada

The UEGF Lifetime Achievement Award 2010 was presented to Professor Juan-R. Malagelada, Spain. He was selected among an enormously competitive field of top international clinicians and scientists. Council felt that Malagelada's contribution in the field of gastroenterology as well as his dedication and commitment to the Federation make him an outstanding candidate and worthy winner.

Award Ceremony // Opening Plenary Session

Monday, October 25, 2010

08.00–10.30 in the Auditorium

08.31–08.46 Presentation of the Award

UEGW 2010 offers the following Awards, Travel Grants and Scholarships to support young scientists and clinicians to attend the UEGW 2010 and/or the Postgraduate Teaching Programme in Barcelona.

BEST POSTER AWARDS

The 12 best posters are awarded a prize on basis of scientific merit using the evaluation process of the UEGW 2010 Scientific Committee.

The award ceremony will be held each day at 13.45 in the poster exhibition area. Prize winners will receive free entry to the Postgraduate Training Programme of next year's UEGW in Stockholm.

INTERNATIONAL SCHOLARSHIPS

UEGW 2010 awards grants to 30 young gastroenterologists (35 years and below) to support their travel and related expenses to attend the UEGW 2010 in Barcelona.

Furthermore, free congress registration and free entry to the UEGW 2010 Postgraduate Teaching Programme is provided.

International scholarships are restricted to citizens of countries with a human development index (hdi) <0.8 according to the latest Human Development Report.

NEW INITIATIVE: NATIONAL SCHOLAR AWARDS AT UEGW BARCELONA 2010

At UEGW Barcelona 2010, a joint committee of UEGF and the ASNEMGE (Association of National European and Mediterranean Societies of Gastroenterology) have introduced a new scheme, similar to the Rising Star initiative: The National Scholar Award (NSA) is designed to identify and nurture promising young investigators at a more junior level. This scheme seeks to encourage early career researchers that can then feed into the 'senior' Rising Star initiative.

The NSAs are based on national society affiliation: among all abstracts that have been accepted for presentation at UEGW 2010, a maximum of one NSA per country has been selected and will be awarded to presenters aged less than 35 years.

To foster the exchange among young gastroenterologists across the globe, all National Scholar Awardees have been invited to an exciting Get Together on occasion of the ASNEMGE Presidential Reception at UEGW Barcelona 2010.

These are the National Scholar Awardees 2010! Congratulations!

RISING STARS 2010

Every year at UEGW 7-8 emerging clinical scientists are selected jointly by ASNEMGE Council and the UEGF Scientific Committee and awarded Rising Star status based on a track record of international-quality research. This initiative ensures promotion of clinical and scientific research activity in the National Societies. It provides a durable platform for young researchers as part of the UEGW Faculty so that they give state-of-the-art lectures and chair scientific sessions.

An annual call is sent out to all National Societies for nomination of young researchers (40 years or under) with a developing track record of independent, international-quality research.

Congratulations to this year's awardees!

TRAVEL GRANTS

UEGW 2010 is offering 200 travel grants of EUR 1.000 each for clinician-scientists of 40 years of age (born on January 1, 1970 and later) and below for best submitted abstracts. Travel grants are awarded on the basis of scientific merit using the evaluation process of the UEGW 2010 Scientific Committee.

Winners have been notified about the travel grant when they have been informed that their abstract has been accepted for presentation.

TRAVEL GRANTS – BASIC SCIENTISTS

UEGW 2010 offers 100 travel grants of EUR 1.000 each for non-clinical scientists of 40 years (born on January 1, 1970 and later) and below for best submitted basic science abstracts.

Travel grants are awarded on the basis of scientific merit using the evaluation process of the UEGW 2010 Scientific Committee.

Winners have been notified about the travel grant when they have been informed that their abstract has been accepted for publication.

Call for 2011 Research Prize and Lifetime Achievement Award will be published in November 2010 at www.uegf.org.

UEGW travel grants and scholarships for 2011 will be announced at the congress website www.uegw11.uegf.org

SCIENTIFIC INFORMATION

John Atherton
Chair, UEGF Scientific
Committee, Barcelona
2010

WELCOME FROM SCIENTIFIC CHAIR

Welcome to UEGW 2010 in Barcelona!

The United European Gastroenterology Week (UEGW) has been organised annually since 1992 and has become the largest and most prestigious GI meeting in Europe.

Highlights for UEGW 2010

Barcelona 2010 will build on the reputation of previous UEGWs as world class clinically-oriented meetings. Particular highlights will include:

- ➔ Clinical updates by international experts
- ➔ Increased coverage of GI oncology, in response to the evolving role of many gastroenterologists
- ➔ A wider range of interactive formats such as debates and keypad voting sessions
- ➔ Live endoscopy sessions in both the main programme and the post-graduate course
- ➔ Expanded "Case Presentation" sessions, with keypad voting
- ➔ Practical hands-on learning, for example for endoscopy and ultrasound

In parallel, we will improve the quality and accessibility of the translational science we feature. Features will include:

- ➔ A major international 2 day symposium on GI and liver stem cells organised by Hans Clevers and Tania Roskams and open to everyone registering for the UEGW.
- ➔ Basic science workshops, where specific cutting-edge topics are dissected and discussed.

Importantly, our meeting is becoming the showcase for the best original GI and liver research from Europe and elsewhere. To encourage this, we are making our oral abstract sessions more interactive and rejuvenating our poster presentation format. For many of us, the UEGW has become the premier place to present our most exciting research findings; we want to encourage all Europeans and many from outside Europe to view it as such.

Finally, our Postgraduate Course is growing in prestige and size year on year. The Barcelona 2010 Course will include plenary sessions on GI/liver cancer and IBD and parallel courses including live endoscopy, GI oncology for medical and surgical gastroenterologists, hepatology and IBD.

The UEGF Scientific Committee has been working hard to develop a great programme. Many thanks to them ... and welcome to Barcelona!

Join the 12,000 physicians, researchers and academics from around the world and learn about current research results! Witness the outstanding scientific programme with an emphasis on the newest research advances as well as clinical and technical innovations in all areas of gastroenterology, hepatology and related fields! Take part in educational courses on diagnostic methods and treatment techniques!

Meet and exchange ideas with medical experts, patient organisations' representatives and common interest groups! Contribute to a meeting whose success is also in your hands!

FORMAT DESCRIPTIONS

➡ Postgraduate Teaching Programme

The UEGW Postgraduate Teaching Programme is the pre-eminent Continuing Medical Education opportunity in Europe for Medical and Surgical Gastroenterologists. It caters for both established practitioners and trainees.

The congress offers a full two-day Postgraduate Programme on Saturday and Sunday incorporating gastroenterology, hepatology, endoscopy, surgery, imaging and other diagnostic modalities. Participants need to purchase a "passport" to move around the various options that will be running in parallel to allow them to "pick'n mix" according to their needs and interests. Full registration for the congress is not required.

*Please see further information on **page 41**.*

➡ Opening Plenary Session

The Plenary Session is held on Monday morning and includes official speeches and the opening of the core scientific programme with a mixture of invited speakers and presentations of the best submitted abstracts. UEGF awards the UEGF Research Prize and the Lifetime Achievement Award at the Plenary Session. No parallel sessions are scheduled.

➡ Symposia

Interdisciplinary symposia cover new approaches to diagnosis and treatment, and place major emphasis on innovative, technical advances in the non-invasive management of gastrointestinal and hepatic disorders and basic science, including State-of-the-Art and Named Lectures.

➡ Today's science; tomorrow's medicine: GI and Liver Stem Cells Symposium

The Barcelona UEGW is proud to host an international two-day symposium on GI and liver stem cells, co-organised and hosted by Hans Clevers and Tania Roskams. This features the best stem cell scientists from around the world, meeting to discuss the current state of the art in stem cell research.

Speakers concentrate on the new understanding that stem cell biology is bringing to regenerative medicine and GI oncology, and the important implications this has for research directions and for therapies. There are also free paper sessions where the best original research is presented by young and established researchers, and discussed by international experts.

The "GI and liver stem cell symposium" is open to all UEGW registrants at no extra cost. It provides a unique opportunity for gastroenterologists and hepatologists to learn how stem cell research is impacting on their disciplines. It will interest inquisitive clinicians and young clinician-scientists, as well as those already active in the stem cell field. Welcome to this new initiative!

➡ Free Paper Sessions

Original research presentations delivered orally have increased prominence this year, with a more interactive format. These sessions allow presentation and lively discussion of the best original research submitted to the UEGW meeting. This is your opportunity to hear about GI and liver research in Europe and worldwide before it is published, and to question the researchers.

➔ Video Case Sessions

The Video Case Session is an excellent platform for brief information on very current issues of endoscopy. During this session short videos showing examples of new, unexpected, or exceptional Endoscopic practice are presented and briefly discussed. Thus, the Video Case Session presents unusual cases or new technologies based on diagnostics of therapeutic endoscopy.

➔ Live Endoscopy

Live endoscopy was the top request for future UEGWs in delegate feedback, and is included in the main programme and the Postgraduate Course. Top international experts demonstrate cutting-edge techniques and new tricks in a lively and exciting format. The use of multiple parallel cases and experienced chairman ensure interactive learning without unnecessary gaps.

➔ Clinical Case Sessions

The aim of these sessions is to promote discussion on clinical management problems that fall outside standard clinical guidelines. Clinical cases are presented and illustrated by high-quality endoscopic, radiological and pathological images. The audience is invited to comment and vote on diagnostic and treatment options.

➔ Lunch Sessions

Lunch sessions are supposed to be management discussion sessions, not didactic teaching and are offered from Monday until Wednesday, 12.45–13.45. The focus of each session is on the daily clinical practice of gastroenterology, with patient-centred case discussions and opportunity for group interaction. A lunch is provided to all participants. Registration for lunch sessions have been accepted on a “first-come, first-served” basis. The maximum number of participants is strictly limited to 30 persons. However, there might still be tickets available. Full registration for the congress is required.

*For the list of lunch sessions please see **page 121 and following**.*

➔ Basic Science Workshops

During the core meeting a Basic Science Workshop takes place on each day. The workshops are aimed at young investigators and focus on research methodologies, study design, data analysis etc.

➔ Increased Use of Different Formats in the UEGW

The UEGF Scientific Committee continues to work to improve session formats used in the UEGW programme. For example, this year more **debates** are introduced, where two speakers present opposite sides of a problem followed by personal and audience interaction. “**Tandem Talks**” are introduced where two experts present different aspects of the same problem. For example, a basic scientist might explain the biological rationale and mechanism for a treatment, and a clinician might explain the practicalities and effectiveness. Another example would be a physician explaining the medical treatment of a condition and a surgeon discussing surgical alternatives. The Scientific Committee encourages **wider use of cases** to illustrate talks and anchor them in medical experience. Finally, **interactivity** is increased by encouraging audience voting (including in a dedicated **keypad room**) and by more interactive chairing.

➔ Meet the Experts

For the first time this year delegates of UEGW have the unique opportunity to meet the experts behind the Scientific Programme and UEGF committees. These “Meet the Experts” sessions, taking place from Monday to Wednesday from 13.00 to 13.45 directly followed by the Poster Award Ceremony, will enable participants to find out about UEGF activities, raise questions or simply exchange a few words with experts and committee members of UEGF and Faculty. The amphitheatre at the UEGF Booth creates an inviting and informal setting that facilitates a vivid exchange. Each day is dedicated to a different topic, starting on Monday with the Scientific Committee responsible for the outstanding Programme at UEGW, followed by the Education Commit-

tee, organising popular PGT courses, the TIGER Initiative and launching the UEGF online learning e-portal and finally rounded up by the Public Affairs Committee, entrusted with the promotion of Gastroenterology on a public and political level.

We welcome all delegates to grab their lunch, stop by the UEGF Booth and experience an entertaining meet & greet with UEGF's experts.

➔ Poster Exhibition / Poster Rounds

Poster Sessions feature an improved and more spacious room layout and poster format. Posters are displayed from Monday until Wednesday in Hall P0. The posters are changed daily and are at display from 9.00 until 17.00 (Mon-Tue) and 9.00-14.00 (Wed). For the list of posters please see page 125 and following.

Poster Rounds are held during the lunch period at the congress. Selected experts will visit groups of posters, when the presenter is expected to give a 1 – 2 minute summary of the major findings described in the poster. The experts lead the discussion with other members attending the poster session. It is the responsibility of the presenter to ensure that at least one of the authors is present during the poster session to take part in the poster discussion.

Best poster presentations will be awarded. At 13.45 each day a poster prize for the 'Best Poster' in each of the four major categories will be awarded:

- ➔ liver disease
- ➔ upper gastrointestinal disease
- ➔ lower gastrointestinal disease
- ➔ surgery, endoscopy and pancreatic disease

All UEGW 2010 attendees are kindly invited to join the **Award Ceremony**, which is held each day at 13.45 at the UEGF Booth in the exhibition Hall P0. Awarded authors receive free entry to the Postgraduate Teaching Programme of next year's UEGW in Stockholm.

➔ ESGE Learning Area

The Learning Area is divided into three sections:

- ➔ the Hands-On Training Centre, which offers, in cooperation with ESGENA, various forms of hands-on training throughout the congress
- ➔ the Lecture Theatre, which offers lectures on selected topics and provide an opportunity for small forum discussions with experts
- ➔ the DVD Learning Centre, with several DVD stations offering individual learning for endoscopy.

The Learning Area is open during the general opening hours of the congress. Teaching aid is provided.

*Please see further information on **page 275**.*

➔ Ultrasound Learning Centre

The Ultrasound Learning Centre promotes the role of a main diagnostic and interventional tool in gastroenterology: Clinical ultrasonography in the hands of the gastroenterologist. The Ultrasound Learning Centre offers individual hands-on mini practice, lectures in abdominal ultrasonography and a postgraduate course on ultrasonography for the gastroenterologist, which is designed for both the beginner and the advanced, offering a mix of lectures and practical training by expert gastroenterologists.

*Please see further information on **page 278**.*

➔ Common Interest Groups

Common Interest Groups have the opportunity to meet at the congress outside the core programme and will be open to all congress participants.

*Please see further information on **page 283**.*

➔ ESGENA Conference

The Conference of the European Society of Gastroenterology and Endoscopy Nurses and Associates (ESGENA) is an associated meeting at the congress with separate scientific programme and registration.

*Please see further information on **page 299**.*

EACCME – CONTINUING MEDICAL EDUCATION

The 18th United European Gastroenterology Week is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS). www.uems.net

The 18th United European Gastroenterology Week is designated for a maximum of 30 hours of European external CME credits.

Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. Full congress days count for 6 credits, half congress days for 3 credits. Thus, a maximum of 30 European CME credits can be obtained.

EACCME credits are recognised by the American Medical Association towards the Physician's Recognition Award (PRA). To convert EACCME credit to AMA PRA category 1 credit, the AMA may be contacted.

In order to obtain CME credits, UEGW requires feedback on its educational activities. Therefore, we kindly ask the delegates to complete the evaluation form either at the CME Terminals in the entrance hall or on paper which can be picked up at the congress counter.

The CME Certificate of EACCME is issued at the self-service CME Terminals or at the congress counter.

SATELLITE SYMPOSIUM

MANAGING COMPLEX GERD PATIENTS:

THE IMPORTANCE OF DRUG-DRUG INTERACTIONS

Monday, October 25, 2010

18:00–19:30

HALL 113

Several recent publications have underlined the drug–drug interaction risk linked to concomitant medications in patients receiving antisecretory treatments. This symposium will focus on the mechanisms and consequences of the drug–drug interactions in GERD patients

Chair: Professor Stanislas Bruley des Varannes, France

Speakers and topics

Stanislas Bruley des Varannes MD, PhD *France*
Challenges of complexity in GERD patients

Ala' Sharara, MD, FACG, AGAF *Lebanon*
Drug–drug interactions in GERD patients

Christian Funck–Brentano, MD, PhD *France*
Mechanisms and importance of drug–drug interactions

Fermín Mearin, MD, PhD *Spain*

POSTER SESSIONS BY DAY

Posters are displayed from Monday until Wednesday in Hall P0. The posters are changed daily and are at display between 9.00 and 17.00.

Poster Rounds are held during the lunch period at the congress. Selected experts will visit groups of posters, when the presenter is expected to give a 1 – 2 minute summary of the major findings described in the poster. The experts lead the discussion with other members attending the poster session. It is the responsibility of the presenter to ensure that at least one of the authors is present during the poster session to lead the discussion.

Best poster presentations will be awarded. At 13.45 each day a poster prize for the 'Best Poster' in each of the four major categories will be awarded:

- ➡ liver and pancreatic disease
- ➡ upper gastrointestinal disease
- ➡ lower gastrointestinal disease
- ➡ surgery, endoscopy

All UEGW 2010 attendees are kindly invited to join the Award Ceremony, which is held each day at 13.45 in the poster exhibition area in Hall P0. Awarded authors receive free entry to the Postgraduate Teaching Programme of next year's UEGW in Stockholm.

Innovative Capsule Endoscope

- Higher Quality Images
- Longer Operation Time
- Higher Frame Rate
- Wider Field of View
- Smaller Capsule Size
- HBC (Human Body Communication)

The core technology behind the image data transmission is IntroMedic's patented HBC technology.

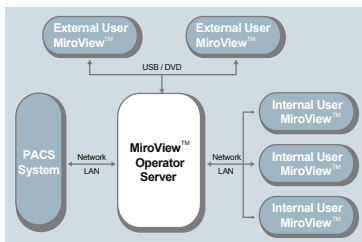

MiroView™ 2.0 Advancements

- **Enhanced Interface:** enables a faster, more comfortable user experience
- **Express View:** second generation quick view mode streamlines the review process
- **Range View & Map View:** innovative viewing modes assist with identifying GI landmark
- **Reporting Tool:** Enhanced design and new features simplify the reporting process

MiroView™ Network System

MiroView™ Network readily integrates with hospital networks; enabling remote access for multiple users and PACS connectivity (supports DICOM).

**ESGE LEARNING AREA and
ULTRASOUND LEARNING
CENTRE**

The European Society of Gastrointestinal Endoscopy (ESGE) hosts the ESGE Learning Area which opens its doors to all UEGW 2010 delegates. The Learning Area offers a variety of excellent teaching modules for endoscopy including lectures, video presentations, expert demonstrations and hands-on sessions. In past years the Learning Area has attracted increasing numbers of attendees and participants.

With the exception of the Hands-on-Training on Biologic Models (on-site registration) taking place on Saturday, October 23 and Sunday, October 24, all events are open on a walk-in basis.

The Learning Area is open Saturday to Wednesday during the hours of the scientific programme.

ESGE HANDS-ON TRAINING ON BIOLOGIC MODELS *(in cooperation with ESGENA)*

Saturday–Sunday, October 23–24, 2010

With access to state of the art endoscopic equipment and accessories and with personal doctor and nurse tutoring, participants will have the opportunity to perform techniques that are demonstrated and discussed in the endoscopic section of the Postgraduate Teaching Programme. The aim is to increase the awareness of diagnostic and therapeutic techniques and to offer delegates the possibility of practicing their skills.

In previous years hands-on training has been a main attraction in the Learning Area, and this year again six 90-minute sessions will take place.

Registration: The registration desk in the Learning Area opens one hour before each session starts. Tickets will be issued on a first-come, first-serve basis.

To maintain a high standard of teaching, the number of participants at each workstation is limited to ten.

ESGE OPEN TRAINING CENTRE

Monday–Wednesday, October 25–27, 2010

As of Monday open hands-on training sessions and simulator training will be offered in the ESGE Learning Area. The work stations present a variety of procedures such as hemostatic techniques, advanced GI endoscopy, ablation techniques on Barrett's esophagus and laparoscopic and endoscopic simulator training. All delegates are welcome to attend the open hands-on training sessions, which are tutored by doctors. Biologic models and simulators are featured, as well as various endoscopic equipment and techniques. Please check the signage on-site in the ESGE Learning Area.

ESGE DVD LEARNING CENTRE

Saturday–Wednesday, October 23–27, 2010

The DVD Learning Centre offers all delegates the opportunity to visit 16 stations where the latest teaching material may be viewed on video screens with headphone sound transmission. Case studies from the ESGE DVD Encyclopaedia are complemented by select video submissions from ASGE. The offering is ideal for individual study and special interest.

ESGE LECTURE THEATRE

Sunday–Wednesday, October 24–27, 2010

Small-forum discussions with experts focus on topics of special interest. All are invited to join in discussion following the presentation. In favour of a classroom atmosphere, the number of participants is limited to 70.

Sunday, October 24, 2010

10.30–11.00	Submucosal tumours	R. Schöfl, Austria
12.30–13.00	Colonic polyps - advanced diagnostics	J. Regula, Poland
13.30–14.00	ESD with acceptable risk	H. Inoue, Japan
15.30–16.00	Acute variceal bleeding	R. Hubmann, Austria

Monday, October 25, 2010

09.30–10.00	Capsule: from small to large bowel	I. Rácz, Hungary
10.30–11.00	Altered anatomy ERCP	L. Aabakken, Norway

Be a better Gastroenterologist with clinical ultrasonography!

Clinical ultrasonography means: Physician performed ultrasonography, by the doctor himself who is in charge of the patient. In some countries, this is established as a routine which is taken for granted. Clinically embedded ultrasonography supports us with sort of another endoscopy, with a realtime sectional view into the body's regions.

The advantages are obvious:

a. immediate and repeatable look – bedside, in elective routine, or in emergencies

- ➔ into the abdomen
- ➔ in realtime
- ➔ at a local resolution approaching a magnification glass's view, not achievable by any other sectional imaging technique; and this
- ➔ as an extension of physical patient examination
- ➔ displaying a multitude of information
- ➔ leading to a safe and quick diagnostic and therapeutic decision making
- ➔ without any hazards known – contrary to X-ray exposure

b. immediate use of specific techniques such as

- ➔ color Doppler display of perfusion dynamics and of vascular morphology
- ➔ contrast enhanced ultrasonography CEUS for e. g.
 - ➔ focal parenchymal lesion's detection and classification
 - ➔ bleeding complications in traumata
- ➔ steering of interventions
- ➔ intraoperative applications
- ➔ elastography
- ➔ endoscopic intestinal and transbronchial ultrasonography EUS and BUS

c. at a minimum of expenses

Learn to Perform Clinical Ultrasonography

No problem – with an up-to-date machine, and initially guided hands on by an experienced medical colleague. Detailed knowledge of the respective (patho-) anatomy is an evidently needed prerequisite. As a matter of fact, looking into the abdomen by means of ultrasonography is easy. Reading textbooks and journals on ultrasonography is required as well as making use of internet based sources of information. However and basically, there is only one true access to learn and to improve clinical ultrasonography: By your own performance.

The UEGW team of medical colleagues at the Ultrasound Learning Centre will give support in two ways:

- ➔ The Postgraduate Course of Ultrasonography for the Gastroenterologist – a two-day course on Saturday, October 23 and Sunday, October 24, 2010.
- ➔ Hands on training from Monday, October 25 to Wednesday, October 27, for all congress participants who want to make their first steps in looking into the abdomen, again guided and trained by experienced medical colleagues. In addition, noon lectures will be held on these three days from 12.30 – 14.00 on special clinical ultrasonography.

"Ultrasonography for the Gastroenterologist"

Saturday, October, 23–Sunday, October 24, 2010 // 09.00-16.00

Saturday, October 23, 2010

09.00 – 09.15	Introduction: What can we learn today	L. Greiner, D. Nürnberg
09.15 – 09.35	The probe as a searchlight on abdominal anatomy	L. Greiner
09.35 – 10.00	You always know where You are: Landmark vessels	I. Sporea
10.00 – 11.00	Training: Hands on → Focus landmark vessels	Faculty
11.00 – 11.20	Searchlight on liver anatomy	A. Popescu
11.20 – 11.40	Searchlight on gallbladder and bile duct anatomy	K. Kinkel
11.40 – 12.30	Training: Hands on → Focus liver	Faculty
12.30 – 13.00	Lunch Break	
13.00 – 13.20	Knobology → Setting up the machine	G. Kreitz
13.20 – 13.40	Searchlight on kidney anatomy	D. Nürnberg
13.40 – 14.00	Clinical Ultrasonography in South America in 2010	A. Yamanaka
14.00 – 14.20	Searchlight on pancreas anatomy	I. Sporea
14.20 – 15.00	Case reports → Your diagnosis?	G. Hanenberg, A. Popescu
15.00 – 15.30	Training: Hands on → Focus pancreas	Faculty
15.30 – 15.40	Searchlight on pelvis anatomy	S. Elhakim
15.40 – 16.00	Closing remarks for the first day	L. Greiner, D. Nürnberg

Sunday, October 24, 2010

09.00 – 09.15	Introduction; which aims today?	D. Nürnberg, L. Greiner
09.15 – 09.45	Training: Hands on → Focus kidneys	Faculty
09.45 – 10.00	Abdominal blood vessel pathology	H. Kinkel
10.00 – 10.15	Gallbladder stones → Silent and symptomatic	A. Popescu
10.15 – 11.00	Training: Hands on → Focus pelvis	Faculty
11.00 – 11.15	Bile duct stones → Potentially, probably, and proven	D. Nürnberg
11.15 – 11.35	Focal liver lesions without and with CEUS	A. M. Barreiros
11.35 – 11.40	Elastography in chronic diffuse hepatopathies	I. Sporea
11.40 – 12.00	Training: Hands on → Focus liver hilum	Faculty
12.15 – 12.30	To puncture or not to puncture, and if so, how	J. Valantinas
12.30 – 13.00	Lunch Break	
13.00 – 13.15	Searchlight on intestine: Stomach and bowels	B. Lembcke
13.15 – 13.30	Searchlight on dynamics: Pulsation, peristalsis, palpation, and respiration	L. Greiner
13.30 – 14.00	Training: Hands on → Focus realtime dynamics	Faculty
14.00 – 14.15	Pancreas pathology → solid focal lesion	G. Hanenberg
14.15 – 14.30	→ diffuse changes	H. Kinkel
14.30 – 14.45	→ cystic focal lesions	O .H. Gilja
14.45 – 15.05	Interventional Ultrasonography for hepatic abscesses → technique, indications, risks, and benefits	L. T. Monici
15.05 – 15.25	Sonographic diagnosis of Echinococcus → European experience	J. Valantinas
15.25 – 15.45	Sudan case reports I	S. Elhakim
15.45 – 16.00	Closing remarks, Certificates	D. Nürnberg, L. Greiner

ESGENA CONFERENCE

14th Meeting of the European Society of Gastroenterology and Endoscopy Nurses and Associates

In conjunction with the Spanish Society of Endoscopy Nurses and Associates (AEEED) and the Spanish Society of Gastroenterology Hepatology and Endoscopy Nurses (AEEPD)

**in Barcelona, Spain
October 23 – 25, 2010**

in conjunction with the 18th United European Gastroenterology Week (UEGW)

Ulrike Beilenhoff
President of ESGENA

Dear Colleagues,

On behalf of ESGENA, AEEED and AEPD we have great pleasure welcoming you to the 14th ESGENA Conference, which will be held during the 18th UEGW on October 23–25, 2010 in Barcelona, Spain.

The three day conference includes state-of-the-art lectures, free papers and posters, lunch sessions, several workshops with hands-on-training and live transmissions. Interesting topics of Gastroenterology and Endoscopy will ensure a truly global context. We are hoping to provide a full and varied programme - to stimulate you into meeting and holding discussions with colleagues from all over the world.

On Saturday, there will be an opportunity to attend several workshops organised in four parallel rooms. The workshops will have a more practical focus and will be held in smaller groups - up to 50 - to encourage discussion, questions, and exchanges of ideas.

Following success at previous conferences, we will be offering hands-on training using bio simulators for nurses on Saturday and Sunday. These workshops will be organised in close cooperation with ESGE. Nurses will also have access to the UEGW Post Graduate Teaching Programme.

On Sunday, the scientific programme, which includes two free paper sessions and a nurses' poster session, will offer mainly nursing-oriented lectures in two parallel halls. In addition, three parallel lunch sessions will have a more practical focus. On Monday morning, we will have the Plenary Session with lectures in one hall. This will bring together all the delegates and we will award the prizes for the best free paper and the best poster. We will conclude with invitations to the next conferences.

The trade exhibition will open on Monday and there should be enough time to browse the stands if the medical scientific programme does not tempt you back into the lecture halls.

We wish you a successful ESGENA Conference and UEGW.

Access for ESGENA members only.

CONFERENCE LANGUAGE

- ➔ The official language of the ESGENA Conference is English
- ➔ On Saturday, October 23, 2010 two workshops will be held in Spanish
- ➔ On Sunday, October 24, 2010 one lunch session will be held in Spanish

ESGENA SCIENTIFIC PROGRAMME

Saturday, October 23, 2010

- ➔ Afternoon: 8 workshops in four parallel sessions
- ➔ Afternoon: Hands-on training on bio simulators

Sunday, October 24, 2010

- ➔ All day: ESGENA scientific programme with free paper and poster sessions and three parallel lunch sessions
- ➔ All day: Hands-on training on bio simulators

Monday, October 25, 2010

- ➔ Morning: ESGENA Plenary Session
- ➔ All day: Technical exhibition and ESGE Learning Area

Hands-on-Training on Saturday and Sunday

- ➔ Hands-on-training on bio simulators will be offered in 5 different sessions in co-operation with ESGE
- ➔ Tickets for nurses will be available at the entrance of the ESGE Learning Area one hour before starting each session
- ➔ Please note that there are only a limited number of tickets available in order to ensure small training groups at each station

ESGENA Poster Session

- ➔ Scientific posters will be displayed on Saturday and Sunday, October 23-24, 2010
- ➔ Two poster sessions will be held on Sunday, October 24, 2010

ESGENA Lunch Session

- ➔ Lunch sessions will combine state-of-the-art-lectures with hands-on training on different stations
- ➔ On Sunday, October 24, 2010, 3 parallel lunch sessions will be offered
- ➔ Please note that there are only a limited number of tickets available in order to ensure small training groups at each station

SATURDAY, OCTOBER 23, 2010**WORKSHOP 1****Endoscope reprocessing: Is there a need for a separation of clean and dirty steps?**

*This workshop is organised by
Olympus Europa Holding GmbH*

13.30–15.00, Hall 127

Chairs: Heike Martiny, Berlin, Germany
Annette Rittich, Hamburg, Germany

➔ Aims & Content

While the separation of contaminated, clean and sterile reprocessing steps is common practice in surgical hygiene, this concept has just recently entered the endoscope reprocessing room. However, is such a high level approach to hygiene really necessary in endoscopy? Is the need to invest into a different reprocessing concept, necessitating among other new endoscope washer disinfectors, just driven by the industry?

This workshop will discuss the following issues:

- ➔ Are pass-through machines in endoscope reprocessing just marketing or of additional benefit to the necessary level of hygiene?
- ➔ Is there any evidence to undermine an improvement of infection prevention?
- ➔ What are potential short-comings in applying clean side/dirty side concept to the endoscope reprocessing room?

WORKSHOP 2**What is the role of nurses during PillCam Colon Capsule Endoscopy?**

This workshop is organised by Given Imaging

13.30–15.00, Hall 128

Chair: Cristina Alvarez, Barcelona, Spain
Ute Pfeifer, Düsseldorf, Germany

➔ Programme

13.30–13.50

Is there a role of nurses during Colon Capsule endoscopy? Clinical experience in practice – Nurse training, management at the hospital, scheduling of patients, a relief for physicians

are the tasks of nurses and doctors during CCE? Which tasks can the nurse take over during the procedure? What kind of training does the nurse need for this? Is this a relief for physicians?

Cristina Alvarez, Barcelona, Spain

13.50–14.20

Practical demonstration of role of nurses in CCE – Explaining the bowel preparation to patient, handing out the patient instruction, monitoring of preparation, monitoring of the CCE procedure, downloading the video, how to read a video, what should be considered? Technical support tools in the software, making thumbnails, using the atlas, using the image adjustments, blue colour, etc.

14.20–14.50

Evidence in nurse reading of CE - An overview of international studies. Investigation of the analysis quality of PillCam Colon Capsule endoscopy of doctors and nurses compared to experts - RCT. The first national study of PCCE in Germany (a presentation of the study protocol, without results)

14.50–15.00

Further questions and discussion

WORKSHOP 3**How to create scientifically sound abstracts and posters for conferences**

This workshop is organised by ESGENA

13.30–15.00, Hall 129

Chairs: Christiane Neumann, Birmingham, UK

Ulrike Beilenhoff, Ulm, Germany

➔ Aims & Content

The professional duty of each nurse includes sharing good evidence based practice. This can be done by teaching staff in one's own department, publication in journals or conference presentations. However, the way scientific presentations are prepared is not normally taught during nurse training.

The workshop aims to introduce nurses to follow scientific principles when

- Choosing a topic
- Preparing and evaluating an abstract for a conference
- Producing a poster which is both scientific and visually attractive
- Presenting a poster at a meeting to the poster round judges

WORKSHOP 4

Risks in the practice of digestive endoscopy = Riesgos en la práctica de la endoscopia digestiva

This workshop is organised by AEEED and is given in Spanish

WORKSHOP 5

Hands-on-Training on Bio Simulators

13.30–15.00, ESGE Learning Area

Chairs: Michael Ortmann, Basel,
Switzerland
Eric Pflimlin, Switzerland

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors.

Participants have the opportunity to perform endoscopic techniques on the following topics:

- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation is limited, registration is treated on a first-come, first-served basis. Tickets are available onsite only – at the entrance of the ESGE Learning Area.

WORKSHOP 6

Hygiene surveillance in the reprocessing room: How to prevent false positive results

*This workshop is organised by
Olympus Europa Holding GmbH*

15.30–17.00, Hall 127

Chair: Holger Biering, Düsseldorf,
Germany
Reinhard Blum, Hamburg, Germany

➤ Aims & Content

Long before the final release of EN ISO 15883-4, the necessity for hygiene surveillance in endoscope reprocessing room was addressed by national and European expert committees and guidelines.

Meanwhile, regular sampling of endoscopes, washer disinfectors as well as the water supply should be considered a routine task. Still, apparent contaminations are time and time again routed back to false positive sampling results.

Independent experts will present the causes of such false positive results and discuss how they can be prevented to increase the efficiency and appropriateness of hygiene countermeasures.

WORKSHOP 7**RXperience - An insight into best clinical practice with short wire ERCP**

*This workshop is organised by
Boston Scientific*

15.30–17.00, Hall 128

Chair: Mark Walker, London, UK

➔ Aims & Content

This programme is designed to increase ERCP nurse's awareness of the clinical benefits of the RX Biliary ERCP System™.

Programme contents

- ➔ Presentation on the clinical best practice related to wireguided cannulation and RX
- ➔ Hands on practice with the RX Biliary system™ on Biliary ERCP models.
- ➔ Conclusion

WORKSHOP 8**Practical training with models – How to make dummies**

This workshop is organised by ESGENA

15.30–17.00, Hall 129

Chairs: Ulrike Beilenhoff, Ulm, Germany
Michael Ortmann, Basel, Switzerland

➔ Aims & Content

In order to simulate realistic training scenarios, training on dummies is a very effective and efficient way of learning. However, it is not necessary to use complicated and expensive bio simulators like pig dummies for daily hands-on-training or smaller workshops; artificial models and dummies can easily be "built" locally.

The attendees will get information

- ➔ about commercially available dummies and
- ➔ how to produce cheap, simple and very effective self-made dummies for practical training in their own practice by using a combination of plastic dolls, meat, fruit and vegetables.

WORKSHOP 9**Patient safety**

This workshop is organised by AEEPD and given in Spanish

15.30–17.00, Hall 130

Chairs: Maria Isabel Jimeno Sáenz,
Barcelona, Spain
Encarna Coca Macías, Barcelona,

Race track: 5 km in the neighbourhood of the congress venue

The UEGF Public Affairs Committee has the pleasure of announcing this charitable event on the occasion of UEGW 2010 in Barcelona.

Improve your health and support a medical charity!

The patient organisation “foro español de pacientes” will benefit from the proceeds of the Run against Colon Cancer 2010.

In its 4th year, the Run 2010 starts and finishes close by the congress venue CCIB.

Registration for runners will open at 8.00 in the foyer of the Auditorium. All participants receive a T-shirt and their starting number at the registration counter. A small breakfast snack and fresh orange juice is served after the Run.

Restrooms and changing rooms for ladies and gentlemen are available next to the registration counter in the foyer of the Auditorium.

The 5 km running track starts from Placa Leonardo da Vinci where an inflatable arch has been put up for the start. Music and a moderator motivate the runners for their 5 km run.

Race control will record the times for all runners. Every participant gets a medal and a personalised certificate at the end of the Run. Mineral water is available for everybody.

Afterwards all runners are expected in the passage between Auditorium and CCIB where a healthy breakfast will be served. Once all runners have arrived, the award ceremony will start.

Registration is still possible at the special counter section in the registration area (Fri–Sat) in the entrance hall of the CCIB and in the foyer of the Auditorium (Sun). Please note that participation is not limited to delegates of UEGW.

➔ Registration fee: EUR 10

Charity support registration fee includes:

- ➔ Runners' shirt
- ➔ Start number and rental of timing chip
- ➔ Free runners' breakfast
- ➔ Finishing medal
- ➔ Personalised certificate

The Run against Colon Cancer is kindly supported by

SUPPORTING PROGRAMME

Barcelona, the capital of Catalonia, is a cosmopolitan Mediterranean city that incorporates in its urban street pattern Roman remains, medieval districts and the most beautiful examples of modernism and 20th century avant-garde art.

Of Roman origin, Barcelona's long history and economic dynamism have provided it with an impressive cultural heritage, shown in the conservation of its rich historic and artistic heritage and in the encouragement of the newest artistic trends. Its long cultural agenda will lead the visitor through museums, exhibitions, outdoor sculptures and an extensive calendar of music, theatre, and dance.

During UEGW 2010, Viajes Iberia Congresos offers various guided tours in and around Barcelona for participants and their accompanying persons. Tour programmes, descriptions and conditions are indicated here below. Tickets can still be purchased at the tours counter in the entrance foyer of the CCIB.

- ➔ All tours will be conducted in English language and are accompanied by an English-speaking guide.
- ➔ All tours will start and end at the congress venue CCIB.
- ➔ All tours are based on a minimum number of 25 participants. Tours will be cancelled if the minimum number is not reached. Full refunds will be available for tours which do not take place.
- ➔ No refund will be possible for included services not taken. Lost or unused tickets cannot be refunded.
- ➔ All prices include the current VAT tax rate.

The panoramic visit includes the main monuments and sites of the city. Please take note that all visits are only of the exteriors.

The BARRI GOTIC (Gothic District) is in the centre of Barcelona, where the Roman-walled settlement first originated. It is here where we'll see the main public buildings including the Town Hall, the Catalan Government Palace and, of course, the Cathedral.

Passeig de Gracia could be considered the Champs Elysees of Barcelona. It is the main street of the Eixample district, a shopping and financial centre.

MONTJUIC mountain (Jewish mountain) has played an important role in the history of Barcelona. As a result this emblematic mountain offers visitors a broad insight into the city's past, as well as offering some beautiful parks and spectacular views of the city and port area. The last transformation of Montjuïc was for the Olympic Games in 1992 when the Olympic Ring was designed.

Antoni Gaudí is probably the most famous modernist architect in the world. Born in 1852, he was an attentive observer of nature and felt attracted to its forms, colours and geometry. This sightseeing tour will encompass outdoor visits to the main houses of Gaudí: Casa Batlló and La Pedrera.

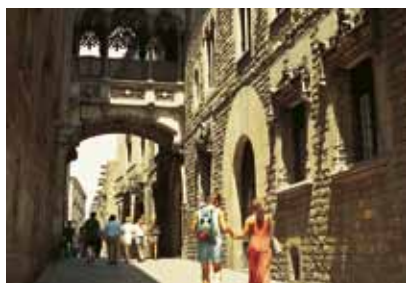

We will then go on to visit inside the: GÜELL PARK (1900–1914). This project was a dream come true for the Catalan businessman Eusebi Guell and Gaudí, the revolutionary architect who, based on the English model of city-gardens, proposed the transformation of a large rocky estate in the north part of the city into a residential area.

SAGRADA FAMILIA The temple was originally a private initiative of the Spiritual Association devoted to St. Joseph. Work began in 1882 under the direction of Francesc de Paula Villar, whose intention was to give the work a neogothic style, in fashion at that time. However, due to differences between the architect and the municipality, he gave up the project and Gaudí stepped in to replace him.

The BARRI GOTIC (Gothic district) is the centre of Barcelona, where the city originated, and where the main public buildings are located. Barcelona's origins date as far back as to Roman times and, despite its transformation in the Middle Ages, there are still traces of its foundations.

Building of the Cathedral began in 1298 during the rule of James II of Aragon and completed in 1454. It's one of the masterpieces of Spanish gothic architecture. The current façade is 19th century. A special mention must be given to the cloister.

The RAMBLA is, of course, the best known landmark of Barcelona. Meandering down from “Catalunya” Square to the Columbus statue, filled with newspaper kiosks, flower sellers and animal stalls, as well as all sorts of artists, it is undoubtedly the place where everyone comes together, both tourists and locals. We will visit the colourful and photogenic Boquería Market (Sundays closed), the largest and most traditional food market in Spain with its many stalls.

Cost per person: EUR 29,50

TOUR OUTSIDE BARCELONA CODORNIU & MONTSERRAT

Monday.....October 25.....09.00–17.00

An approximately 45 minute drive from Barcelona will take us to the “Penedés” wine region, home of “Cava” (Catalan sparkling white wine produced using the same process as French Champagne). Codorniu are the biggest wine cellars in the world, covering 30 kilometres and set out on five levels. Built by the architect Josep Maria Puig i Cadafalch, a genius of the modernist style.

Afterwards the tour continues on to Mount MONTSERRAT, said to be the inspiration of Wagner for the setting of the opera Parsifal. The Monastery, dating from the middle of the 19th century–Napoleon’s army destroyed the old monastery in 1815–hosts a community of some 80 monks who follow the 6th century Benedict rule.

The church interior was restored after the destruction by Napoleon’s army and hosts the image of Our Lady of Montserrat, popularly known as “La Moreneta” (dark woman) due to the dark colour of her face. It is a lovely 12th century Romanesque carving. In 1881 she was crowned and declared the Patron Saint of Catalonia.

Lunch in a local restaurant is included.

Cost per person: EUR 118,00

TOUR OUTSIDE BARCELONA GIRONA & FIGUERES

Tuesday.....October 26.....08.30–17.30

GIRONA is located 100 km, north of Barcelona. It is divided in two by the river Onyar which cuts through the heart of the city. On the right bank of the river; above a hill, stands the old city, which was formerly enclosed within city walls and extended across the flat area of the riverbank. The modern city rises on the left bank of the river, and spreads across to the old Mercadal neighbourhood. The cathedral (11th–18th centuries) combines different styles including Romanesque, Gothic, Renaissance and Baroque. The cloister is a masterpiece of Catalan Romanesque art and was built between the 11th and the 12th centuries and has been totally preserved.

FIGUERES is located in the rural region of “Alt Ampurdà” and is internationally known for being the birthplace of Salvador Dalí. There you will visit the old municipal theatre which was converted by this eccentric artist into his Theatre-Museum. Opened in 1974, the Dalí Theatre-Museum was built upon the remains of the former Figueres theatre. It contains the broadest range of works spanning the artistic career of Salvador Dalí (1904–1989), from his earliest artistic experiences and his surrealist creations down to the works of the last years of his life.

Lunch included in local restaurant.

LIST OF REVIEWERS

John Atherton
*Chair, UEGF Scientific
Committee, Barcelona
2010*

Dear Colleagues,

On behalf of the UEGF 2010 Scientific Committee, I would like to take this opportunity to thank you most sincerely for your contribution as an abstract reviewer for the original programme of UEGW 2010. I know just how much time and effort this takes but without your expertise we would not have the quality that I believe we have achieved in the free paper and poster sessions, and the UEGW would not be the top international digestive diseases meeting that it has become today. Thank you!

I am delighted to announce that we received a total of 3,333 abstracts for UEGW 2010, Barcelona. This represents an increase of 15% over UEGW Vienna 2008, the last "stand-alone" UEGW. In total, 2,131 abstracts were accepted, giving an acceptance rate of 64%. 481 abstracts will be delivered as oral presentations and 1,650 as posters. This high volume and high standard confirms that UEGW is the most important forum at which to present your best research. In addition, we have received 98 clinical cases and 50 video cases which were formally evaluated by the Scientific Committee for presentation in Barcelona. As in previous years, late breaking abstracts have been scored by the Scientific Committee only because of the limited time that is available for decision making.

The quality of reviewing this year was excellent, and we had many positive comments about our new scoring system. If you have further (positive or negative) comments, please let us know!

.....and finally, but most importantly, thanks to all investigators both within and outside Europe who have submitted their research to the meeting, and who are clearly contributing to making UEGW 2010, Barcelona a great success !

Yours sincerely
